

Car Buying Service

When you're looking for your next vehicle, go through our FREE Member Automobile Assistance Program (MAAP).

Your MAAP representative removes the guesswork by providing complete printouts on most foreign and domestic vehicles. The printouts include the following information:

- Factory invoice and sticker price for base vehicle
- Standard equipment on base vehicle
- Factory invoice and sticker price for manufacturer installed options and options package
- Destination charges
- Estimated advertising costs

The printouts are updated every 30 days and the prices listed are accurate within \$50 to \$100, except for special situations. MAAP can also help you determine your used vehicle trade-in value.

GECU has partnered with over a hundred Greater Cincinnati and surrounding area dealerships to provide a no-hassle, car-buying experience for our members, and will supply you with contacts at the dealerships. Frequently, MAAP can give you a good idea of how low the dealer may be willing to price the car you want to buy.

And, not only will you get a fair price - and in many cases a better price - from these dealers, but when you buy from one of these dealers, you can complete your GECU loan paperwork directly at the dealership... It's that easy!

For a list of our partner dealerships, please visit our website at: www.gecreditunion.org and click "Car Buying" found under the "Quick Clicks" menu and then on the ad on the right hand side of the page.
