### FAQs:

- **What type of checks can be deposited with Mobile Deposit?**  
Eligible checks include checks in their original form, payable directly to you in U.S. dollars, and drawn from a U.S. financial institution.
- **Should I keep the check after depositing?**  
Hold onto the check in a secure location for 45 days and then, after confirming the deposited funds have been applied to your account correctly, destroy the check. Destroying the check prevents it from being presented for deposit at another time.
- **Can I view Mobile Deposit history?**  
In the **History** tab within Check Deposit, you can view 180 days of history. In addition, you can view real-time check statuses, deposit information, and the front and back of your check images.
