

POPMONEY®

An easy way to send money.

Don't worry about writing a check or carrying cash to pay your friends, roommate, or babysitter — you can send money directly within Online Banking or our mobile app to practically anyone.

Popmoney perks:

- **Personalize Payments.** Include custom messages when sending or requesting funds.
- **Track Transactions.** View and track recent activity, including funds sent and received.
- **Import Contacts.** Add payees directly from your phone or a popular email service, such as Yahoo!® and Gmail®.
- **Request Money.** Through Online Banking, send requests to a person or group with just an email address or phone number.
- **Repeat Payments.** Schedule recurring payments when using Popmoney in Online Banking.

How it works:

Use Popmoney to: pay rent, reimburse friends, cover shared expenses, send an allowance, or pay a babysitter. No matter what need arises, sending money is safer and easier than ever.

1. Import contacts or enter the recipient's information (name, email address, and/or cellphone number) and the dollar amount you want to send.
2. An email or text message will be sent automatically to the recipient notifying them of the funds.
3. The recipient logs in to their Popmoney account (through their financial institution or they can set up a Popmoney account for free) to receive the money.

Need to send money to the same person again? It's easy! Simply select their name, enter the amount, and send.

How to get started:

Within Online Banking

1. Log in to Online Banking.
2. Hover over the **Move Money** tab.
3. Click **Pay other People (Popmoney®)**.

Within our mobile app

1. Open the GECU mobile app.
2. Tap **More**.
3. Tap **Popmoney** and **Enroll Now**.
